

VICTOR STANLEY RELAY™

STREET LEVEL SENSING™ & WASTE CONTROL SERVICE

An orderly revolution in waste control.

Since 1962, we've been designing, manufacturing and refining receptacles for waste and recycling. Now, our Victor Stanley Relay™ Sensor and Service, which continuously monitors fill level, is boosting time and cost efficiencies for municipalities across the country. Relay also conveys system temperature, weight, location via GPS and collection status, in real-time and historically, allowing for planning, scheduling, and routing collections much more efficiently — an estimated 40-60% reduction in collection expenses. Whether you retrofit or make it part of new orders, Relay says a lot about how your community handles waste.
